Catherine, thank you for the information. NHA's job is to collect the potential supplier and product information then post on our web site for all our partners to access. They each are responsible to purchase their own inventor. We also compile what we receive and forward to the State COVID-19 Command Center who is ultimately responsible for all state purchases.

We generally need:

- *Product description (including factory specifications and how they compare to CDC standards.
- *Unit Price
- *Quantity available and minimum order requirements
- *Timing of delivery

Some of this information you have provided. Once I receive the balance of information I will add it to our web site and forward on to the State.

Thanks,
Bill

Subject: Hospital grade mask

Hello Bill,

I was referred to you by Misty Grimmer, I manufacturer uniforms here in Las Vegas and in China, we can supply your hospitals at a very low cost medical grade mask.

Our KN95 are \$1.70 a pc and the blue pleated are .50 a pc.

500 pc or more.

they can arrive in about 5 days.

Please let me know how we can help supply medical personnel with the supplies they need sooner than later.

Thank you

Catherine Trifiletti
