Subject: Protective clothing and medical equipment - Update April

Dear Sir or Madam,

With the current Covid-19 crisis currently plaguing the globe, PPE, and ventilators are in high demand. SL Korea Co., Ltd. is in contact with manufacturers for the sale of medical protective equipment. The following products can be delivered directly from China. We also have the **Chinese export license of medical protective equipment**.

Product Name	Certificate	Country	Production (Daily)	M.O.Q	Price (¥)	Price (\$)
KN95 Mask	CE	China	2,000,000	1,000,000	¥12.00	\$1.69
Infrared thermometer	CE	China	400,000	10,000	¥252.00	\$35.53
3-layer mask	CE	China	2,000,000	1,000,000	¥4.00	\$0.56
Alcohol Hand Sanitizer 500ml	KS	Korea	100,000	10,000	¥44.00	\$6.20
Disposable suit	CE	China	100,000	10,000	¥58.00	\$8.18
Medical protective clothing	CE	China	100,000	10,000	¥146.00	\$20.59
1copy™ COVID-19 qPCR kit	CE	Korea		1,000	¥170.00	\$23.97
GenBody COVID-19 IgM/IgG	CE	Korea		1,000	¥128.00	\$18.05
YH830 (Ventilator)	CE	China	500 per week	1,000	¥99,367.00	\$14,010.55
YH730 (Ventilator)	CE	China	100 per 5 days	1,000	¥82,375.00	\$11,614.71

According to the manufacturer, at least 1.2 million KN95 masks (FFP2) and 300,000 infrared thermometers can be produced per day.

My team and I manage shipping, order processing and contact with customers. Another team is located directly in China and provides us with daily information about production and worldwide demand from manufacturers. We are currently shipping from 2 airports in China with 2 logistics and freight forwarding companies. The transit time from China is 4-5 days. The costs are correspondingly high and are about 14 USD/KG, which is why the above mentioned prices are only valid until April 8th.

Enclosed you will find the certificates and pictures of the above mentioned products for medical protective clothing and equipment.

Please respond via email or by calling.

With kind regards,
Faber Bickerstaffe
