PURE MED SUPPLY

Bill Welch

Nevada Hospital Association | President / CEO

5190 Neil Rd. Ste. 400 Reno, NV 89502

Dear Mr Welch,

Below kindly find the proposed bid and a bit of our background and why we believe we can help ensure your goods arrive on time, no surprises, and to the quality level of your expectations. First some background.

About Us: While PureMedSupply (PureMeds) is a recent formation, it is part of the Pure Group where Pure Facades and its predecessor has been manufacturing in China since 2005 for the US market. PureMeds has recently invited Christopher Danek to join who since graduating with a doctorate in Mechanical Engineering at Stanford University '94 has spent the last 25 years in the medical devices field heading such companies as AtheroMed (acquired by Philips Volcano) in addition he has led R&D, Operations, and Quality at various medical device companies. Additionally, we have also engaged Chinese born and raised (US educated, Harvard) medical industry manager to help manage the Chinese side products. Carl Ruthling, the founder of the Pure Companies, has been in China full time since 2000, fluent in Mandarin, and also as a Stanford Doctorate Ph.D. Mechanical/Plasma Physics, M.S. Georgia Tech Aerospace/Mechanical, and UVA B.S. Aerospace Engineering. Pure has an office based in Guangzhou, China where Manufacturing, QC, Project Managers, Logistics/Shipping and Engineers are based. That existing current Guanzhou infrastructure will QC, Test, Verify, and arrange for export and logistics to delivery to Atlanta.

Pure is used to high financial value projects that need to be protected with the highest care and commitment to schedule. The last project we just completed was \$25 million contract awarded to us by the Plaza Corporation (NYC HQ) to put the skin on a \$300 million NY high rise. Each project usually requires global shipments of 250 to 300 40 to 45 foot containers and air cargo'ing multiple tons of materials. We know how to manufacture globally, ensure highest quality, verify via spot testing, and ship it globally.

Pure Med Supply has vetted over 100 factories and offer the following N95 FDA and CE certified mask factory as well as a FDA certified isolation gown factory. Kindly note FedEx has increased their prices by 500% and shipping times have swelled from a normal 3 days to 10-12 days since passenger planes normally that take a bulk of the air cargo have all stopped. Our logistics access to dedicated direct flights from China to the US means we can deliver a product and clear customs end to end in est. 3 days. Helping to ensure the product validity and certifications will help ensure you are protected. While others who do not have boots on the ground and in the factory did not ensure the supply at the source factory and during its shipment could possibly be exposed to receiving product they did not pay for.

Offering:

|| www.PureFacades.com || www.PureMedSupply.tech ||

- Provide vetted quality factories with CE or FDA certification
- <https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfRL/rl.cfm>
- Confirm all documentation matches and business licenses and address of factory
- QC product that is under production
- Test the product that is produced
- Monitor the factory production and warehouse and receive the product directly at the factory loading dock ensuring the product was not manufactured at another location.
- Engage our Boston, MA headquartered logistics company to meet us at the factory and then transport to their chartered plane to transport to the USA and deliver to your USA destination.
- Clear China customs
- Clear US customs (provide assistance, since you will receive the product)

Price:

N95: FDA certification, \$3.95/mask CIF Atlanta (includes China tariffs, logistics from China factory to Atlanta location, express air shipping).

Production is 500,000 per week.

50% payment to start production, 25% prior to air cargo. Balance within one week of arrival to Atlanta.
